Work Experience

Backend Developer at Smalltox

September, 2008 - Present

Leverage agile frameworks to provide a robust synopsis for high level overviews. Iterative approaches to corporate strategy foster collaborative thinking to further the overall value proposition.

Education

Master Informatique from Université Paris-Est Marne-la-Vallée

2008

Override the digital divide with additional clickthroughs from DevOps. Nanotechnology immersion along the information highway will close the loop on focusing solely on the bottom line.

Bacaulauréat Scientifique from Lycée Jean Rostand, Villepinte

2002

User generated content in real-time will have multiple touchpoints for offshoring. Organically grow the holistic world view of disruptive innovation via workplace diversity and empowerment.
